Task List Explanation - Web Development

Intermediate Level - (At least 1 Task to be done) Out of the 2 tasks you are required to do at least 1 task. You can either choose the 1st one or the 2nd one.

1st Task - Create an e-commerce website by taking references from existing websites like Amazon, Flipkart, Snap Deal, Myntra, etc. You can add new features to it, that's totally your choice. We have assigned this task as when it comes to real-time client projects you will mostly be creating e-commerce websites for the clients, so you need to know fundamentally how websites work.

2nd Task - Create a fan page for your favorite IPL team, this is a simple and straightforward task, no requirements from our end. The only thing that we see here is how creative you are.

Once this task is over, kindly approach the program coordinator via mail at aakash@shadowfox.in by sharing your work. Based on these tasks the mentor will decide if you can work on the Advanced level task or not. Details about the advanced level will be told separately by coordinator. **Advanced level task will be assigned by ShadowFox.**

Task No 2:

About The Team

The Mumbai Indians are one of the most successful franchises in the Indian Premier League (IPL) history. Owned by India's biggest conglomerate, Reliance Industries, MI represents the financial capital of India - Mumbai.

Established in 2008, Mumbai Indians have won the IPL title a record 5 times (2013, 2015, 2017, 2019, 2020) and the Champions League Twenty20 twice (2011, 2013).

Known for their distinctive blue and gold colors, Mumbai Indians play their home matches at the iconic Wankhede Stadium, which has witnessed numerous memorable cricketing moments.

The team is coached by former Zimbabwean cricketer Mark Boucher and currently led by Indian cricket superstar Rohit Sharma.
